Our bankruptcy and creditors' rights group consists of experienced attorneys with banking, corporate, and litigation backgrounds.

We provide guidance for creditors, businesses, institutions, and individuals dealing with insolvent borrowers and facing financial problems. We provide insightful and concrete advice to our clients on how to deal with troubled borrowers from the start of any financial issues, with the goal of avoiding a lengthy bankruptcy or enforcement process. We handle cases until the matter is settled, the loan is paid off, or your collateral is obtained.
