

Tax Assessments

As a property owner, you may have grounds to challenge your tax bill and save hundreds, or even thousands of dollars in annual taxes.

If your property is unfairly assessed and it is determined an appeal is appropriate, our Tax Assessment Department is expertly versed in all aspects of the appeal, including in-depth research, data and evidence gathering, case preparation and appeal submission, along with tax attorney representation.

Our clients include residential property owners as well as commercial property owners and municipalities. In addition to tax assessments, the firm also focuses on tax exemptions and payments in lieu of taxes.
